Arizona's 50th Legislative Session Ends; Twelve CAP-Supported Bills Signed Into Law So Far

The Arizona Legislative officially adjourned at dawn Wednesday morning, April 20.

As of this writing, 12 Center for Arizona Policy supported bills have been signed into law. Two more measures achieved final passage. Both houses recognized the tremendous work of pregnancy care centers throughout Arizona. And, in a long-awaited move, the legislature referred a CAP-supported reform measure to the November, 2012, ballot to enhance transparency and accountability to Arizona's merit selection system of selecting judges.

Another four CAP-supported bills await the governor's action, while two have been vetoed.

In the coming days, CAP will release the 2011 *Family Issues Voting Record*, reporting on how Arizona's 90 state legislators voted on important issues to the family. CAP also will release a recap of the 2011 session once Governor Brewer has acted on all CAP-supported legislation.
