TABLE OF AUTHORITIES ..... iii

INTEREST OF *AMICI CURIAE* ..... 1

SUMMARY OF ARGUMENT..... 1

ARGUMENT ..... 3

    I. June Medical lacks a “close” relationship with women seeking abortion and should not be presumed to have third-party standing. .... 3

        A. Louisiana abortion clinics—including June Medical Services—have a long history of serious health and safety violations. .... 5

        B. Louisiana abortion doctors have a long history of professional disciplinary actions and substandard medical care..... 15

    II. The Fifth Circuit appropriately applied the *Casey* standard and distinguished *Hellerstedt* to uphold Louisiana's act 620. .... 21

    III. *Hellerstedt* has aggravated the already unworkable standard set out in *Roe* and *Casey*, and the Court should reconsider those precedents. .... 29

CONCLUSION .....	35

**INTEREST OF *AMICI CURIAE*<sup>1</sup>**

*Amici* are 207 Members of Congress, 39 Senators and 168 Members of the House of Representatives, representing 38 States. A complete list of *Amici* Members is found in the Appendix to this brief.

*Amici* Members have a special interest in the correct interpretation, application, and enforcement of health and safety standards for elective abortion enacted by the People of the States they represent. *Whole Woman’s Health v. Hellerstedt*, 136 S. Ct. 2292 (2016) created an overly subjective “balancing” test, leading to confusion among Congress and state legislatures alike as to which laws might withstand constitutional scrutiny. *Amici* strongly urge the Court to uphold the decision below and to provide clarity regarding the bounds of the Government’s ability to safeguard the lives and health of their citizens.

**SUMMARY OF ARGUMENT**

*Amici* will first address the question presented by Louisiana: whether “abortion providers [can] be presumed to have third-party standing to challenge health and safety regulations on behalf of their patients absent a ‘close’ relationship with their patients and a ‘hindrance’ to their patients’ ability to sue on their own behalf.” Like abortion facilities in many States, Louisiana abortion clinics—including

---

<sup>1</sup> No party’s counsel authored any part of this brief. No person other than *Amici* and their counsel contributed money intended to fund the preparation or submission of this brief. Counsel for all parties have filed blanket consents to the filing of *amicus* briefs in support of either or no party.

June Medical—have a long history of health and safety violations, and Louisiana abortion doctors have a long history of professional disciplinary actions and substandard medical care. This history reveals that not only do Louisiana abortion providers lack the kind of “close” relationship ordinarily required for third-party standing, but also that there is an inherent conflict of interest between abortion providers and their patients regarding state health and safety regulations. Therefore, June Medical cannot be presumed to enjoy a “close” relationship with its patients when it comes to legal challenges brought against the very laws the State passes for the protection of the patients’ health and safety, and it should not be deemed to have third-party standing.

With regard to June Medical’s question presented, *Amici* submit that while the Fifth Circuit understandably struggled with the meaning of the “undue burden” standard put forth in *Planned Parenthood of Se. Pa. v. Casey*, 505 U.S. 833 (1992), the court appropriately distinguished *Hellerstedt* on a record that reflected “greatly dissimilar” facts and a demonstrable absence of burden on abortion access due to the operation of Louisiana Act 620.

Finally, *Amici* respectfully suggest that the Fifth Circuit’s struggle to define the appropriate “large fraction” or determine what “burden” on abortion access is “undue” illustrates the unworkability of the “right to abortion” found in *Roe v. Wade*, 410 U.S. 113 (1973) and the need for the Court to again take up the issue of whether *Roe* and *Casey* should be reconsidered and, if appropriate, overruled.

## ARGUMENT

### I. JUNE MEDICAL LACKS A “CLOSE” RELATIONSHIP WITH WOMEN SEEKING ABORTION AND SHOULD NOT BE PRESUMED TO HAVE THIRD-PARTY STANDING.

In *Singleton v. Wulff*, this Court concluded that “it generally is appropriate to allow a physician to assert the rights of women patients as against governmental interference with the abortion decision.” 428 U.S. 106, 118 (1976). Based on this generality, this Court and lower courts have assumed *carte blanche* that abortion providers have third-party standing on behalf of women seeking abortion without any meaningful, particularized analysis. Cf. *Hellerstedt*, 136 S. Ct. at 2322 (Thomas, J., dissenting) (“[A] plurality of this Court fashioned a blanket rule allowing third-party standing in abortion cases.”). Since abortion providers routinely challenge State health and safety regulations designed to protect their patients, this presumption is at odds with this Court’s third-party standing doctrine requiring a “close” relationship between the third party and the persons who possess the right. *Kowalski v. Tesmer*, 543 U.S. 125, 130 (2004).

When it comes to State health and safety regulations, there is an inherent conflict of interest between abortion providers and their patients. It is impossible for abortion clinics and doctors to share or represent the interests of their patients when they seek to *eliminate* the very regulations designed to protect their patients’ health and safety.

Abortion providers routinely bring legal challenges against State health and safety regulations, and Louisiana abortion clinics and doctors are no different.<sup>2</sup> These cases often involve the unsubstantiated claims that the health and safety regulations will close clinics or “force physicians in Louisiana to cease providing abortion services to women.” *Okpalobi v. Foster*, 244 F.3d 405, 410 (5th Cir. 2001) (*en banc*). Yet despite these doomsday predictions, abortion clinics remain open and doctors continue to provide abortions when the regulations go into effect.<sup>3</sup>

June Medical brings the current legal challenge against a backdrop of serious health and safety violations by Louisiana abortion clinics and professional disciplinary actions and substandard medical care by Louisiana abortion doctors. In fact, the Fifth Circuit found the history of health and safety code violations at June Medical and Delta Clinic as well as “generally unsafe conditions and protection of

---

<sup>2</sup> See, e.g., *Choice Inc. v. Greenstein*, 691 F.3d 710 (5th Cir. 2012) (legal challenge by five Louisiana abortion clinics against licensing compliance standards); *Okpalobi v. Foster*, 244 F.3d 405 (5th Cir. 2001) (*en banc*) (legal challenge by five Louisiana abortion clinics and doctors against a law giving women a private tort remedy against abortion doctors for damages to both mother and unborn child during an abortion procedure).

<sup>3</sup> See, e.g., *Okpalobi*, *supra* note 2, at 410 (claiming if Act 825 goes into effect, it will “eliminate abortions in Louisiana”); La. Rev. Stat. Ann. § 9:2800.12 (Act 825 currently in effect).

rapists” to be “horrifying.”<sup>4</sup> This history amply demonstrates that June Medical does not have a “close” relationship with their patients and should not be deemed to possess third-party standing.

A. Louisiana Abortion Clinics—Including June Medical Services—Have a Long History of Serious Health and Safety Violations.

Louisiana abortion clinics have a slew of health and safety violations documented in Statements of Deficiencies (SOD) by the Louisiana Department of Health (LDH).<sup>5</sup> Below is a summary of some of the more egregious violations reported by LDH for the three Louisiana abortion clinics involved in this lawsuit—June Medical Services, Delta Clinic of Baton Rouge, and Women’s Health Care Center.<sup>6</sup>

**June Medical Services.** June Medical Services, doing business as Hope Medical Group for Women in Shreveport, is challenging Louisiana’s admitting privileges requirement in this case and a host of other

---

<sup>4</sup> *June Med. Servs., L.L.C. v. Gee*, 905 F.3d 787, 806, n.56 (5th Cir. 2018).

<sup>5</sup> All the LDH SODs cited in this Brief are public records received under Louisiana Public Records Law, La. Rev. Stat. Ann. 44:1 *et seq.*, and are on file with *Amici*’s counsel.

<sup>6</sup> For a lengthier discussion of the history of abortion practice in Louisiana, see Brief *Amicus Curiae* of Ams. United for Life in Support of Cross-Petitioner, *Gee v. June Med. Servs. L.L.C.*, No. 18-1460 (Vide 18-1323) (2019), [https://www.supremecourt.gov/DocketPDF/18/18-1460/103796/20190624094927367\\_18-1460%20Amicus%20Brief%20of%20Americans%20United%20for%20Life.pdf](https://www.supremecourt.gov/DocketPDF/18/18-1460/103796/20190624094927367_18-1460%20Amicus%20Brief%20of%20Americans%20United%20for%20Life.pdf).

Louisiana health and safety regulations in other cases.<sup>7</sup> June Medical has been cited for violating patient health and safety regulations, as well as failing to ensure proper physician credentialing and competency.<sup>8</sup>

*Substandard patient care.*

- 2010: Immediate Jeopardy<sup>9</sup> situation identified for failing to monitor each abortion patient’s level of consciousness, respiratory status, and cardiovascular status during abortion procedures for patients receiving administration of intravenous (IV) medications and inhalation gas agents.<sup>10</sup>

---

<sup>7</sup> See, e.g., *June Med. Servs. L.L.C. v. Gee*, No. 17-404 (M.D. La. filed June 27, 2017) (challenging the entire out-patient abortion regulatory scheme—at least 26 laws—including licensing and informed consent requirements); *June Med. Servs. L.L.C. v. Gee*, No. 16-444 (M.D. La. filed July 1, 2016) (challenging six health and safety laws, including board certification requirements).

<sup>8</sup> June Medical was cited by the LDH for failing to ensure its physician had admitting privileges at a local hospital or a written transfer agreement with a physician with admitting privileges. LDH, SOD for Hope Medical Group for Women (“Hope Medical”) 1–2 (Oct. 4, 2006).

<sup>9</sup> “Immediate Jeopardy” means “noncompliance has placed the health and safety of recipients in its care at risk for serious injury, serious harm, serious impairment or death. . . . [It] is the most serious deficiency type, and carries the most serious sanctions . . . .” Ctrs. for Medicare & Medicaid Servs., *State Operations Manual*, Appendix Q—Core Guidelines for Determining Immediate Jeopardy (Mar. 6, 2019).

<sup>10</sup> LDH, SOD for Hope Medical 4, 8–9 (Aug. 13, 2010).

- 2010: Failure to ensure that the physician performed and documented a physical examination on each abortion patient.<sup>11</sup>
- 2010: Failure to ensure that the physician verified a patient's menstrual, obstetrical, and medical history and questioned the patient about past complications with anesthesia prior to administering the anesthesia and performing the abortion.<sup>12</sup>
- 2012: Failure to ensure an abortion patient was medically stable upon discharge.<sup>13</sup>
- 2012: Failure to ensure all patients completed and signed consent forms for the abortion procedure conducted.<sup>14</sup>

*Unsanitary, expired, missing, or improperly stored instruments, medications, and medical supplies.*

- 2011: Failure to label the name or strength of stored medications and identify the patient's name, and the date and time the medication was prepared.<sup>15</sup>
- 2011: Failure to document when medications were compounded, properly store the

has a history of reportedly unscrupulous business practices.

For example, Brinkley was held personally liable for Delta Clinic's fine for violating the Federal Controlled Substances Act after the clinic failed to pay. See *United States v. Clinical Leasing Serv., Inc.*, 982 F.2d 900 (5th Cir. 1992). He also employed the infamous Dr. Kermit Gosnell as an independent contractor at his Delaware clinic.<sup>45</sup> Brinkley would send women whom the Delaware clinic could not help (presumably because they were seeking late-term abortions) across state lines to Gosnell's clinic in Pennsylvania.<sup>46</sup> Gosnell's clinic was "convicted for the first-degree murder of three infants who were born alive and for the manslaughter of a patient." *Hellerstedt*, 136 S. Ct. at 2343 (Alito, J., dissenting). When Brinkley was subpoenaed for Gosnell's patient files, he produced three but could not explain what happened to the rest.<sup>47</sup>

The clinic violations reported in the LDH SODs demonstrate that Louisiana abortion clinics do not share their patients' interests when it comes to health and safety, and as such cannot have the necessary "close" relationship for third-party standing.

B. Louisiana Abortion Doctors Have a Long History of Professional Disciplinary Actions and Substandard Medical Care.

Louisiana abortion doctors have been the subject of numerous professional disciplinary actions by the Louisiana State Board of Medical Examiners (“Board”). These actions reveal that past and current abortion doctors have engaged in unprofessional and unethical behavior and substandard medical care of their patients.<sup>48</sup> Five of these abortion doctors—some of whom have been involved in legal challenges against Louisiana health and safety laws—are discussed below.

**Dr. Adrian J. Coleman** was an abortion doctor at Delta Clinic. In 2008, his operative vaginal delivery (OVD) privileges at a medical facility were suspended after an infant died during a delivery he performed. In 2009, his clinical privileges at another facility were suspended because he had an “unacceptably high number of absences from obstetrical deliveries, [did] not adequately evaluate and care for his patients in the labor and delivery unit, and fail[ed] to document his patient care adequately and accurately.”<sup>49</sup> As a result, the Board placed Coleman’s medical license on

---

<sup>48</sup> All Board disciplinary reports are judicially noticeable public documents available on the Board’s website: <https://secure.pharmacy.la.gov/Lookup/LicenseLookup.aspx>. See Fed. R. Evid. 201.

<sup>49</sup> *In the Matter of: Adrian Joseph Coleman*: No. 08-I-775, at 1 (La. Bd. Med. Exam’rs Mar. 15, 2010).

three years' probation and prohibited him from performing all OVD procedures until the Board determined that he was "competent to perform [them] safely and in accordance with the prevailing standards of medical practice."<sup>50</sup> Coleman died in 2011.

**Dr. Ifeanyi Charles Anthony Okpalobi** was involved in multiple legal challenges to Louisiana abortion health and safety laws, including one that created a private tort remedy for women against abortion doctors for damages to both the mother and unborn child during an abortion procedure. See, *e.g.*, *Okpalobi*, 244 F.3d 405. During this time, the Board cited him for failing to report multiple malpractice complaints and settlements.<sup>51</sup> This, coupled with allegations he "demonstrated professional and/or medical incompetency by his inability to provide timely and appropriate care to his patients," such as pre- and post-natal management and "testing and evaluation related to abortion," resulted in a consent order in which Okpalobi agreed to a three-year probationary period on his medical license and to an indefinite prohibition on his obstetrical practice.<sup>52</sup> In 2012, Okpalobi was officially reprimanded for his repeated failures to meet Abortion Facility Licensing Standards and continued conduct indicative of a practice which "fail[ed] to satisfy the prevailing and

<sup>52</sup> *Id.*

usually accepted standards of medical practice.”<sup>53</sup> He was required to receive Board approval for any intended medical practice.<sup>54</sup> Okpalobi died in 2018.

**Dr. A. James Whitmore, III** joined Okpalobi’s challenge to Louisiana’s abortion tort remedy law. See *Okpalobi*, 244 F.3d 405. Previously, Whitmore was involved in two deliveries of children in which his diagnoses and treatments were inappropriate and resulted in the birth of one child brain damaged, the death of one other child, and an inappropriate Caesarean section.<sup>55</sup> While with Delta Clinic, Whitmore used instruments that were rusty, cracked, and unsterile; single-use instruments on multiple patients; and a sterilization solution that was infrequently changed.<sup>56</sup> After one second trimester abortion he performed, the patient continued to have moderate bleeding but the ambulance was not called for nearly three hours.<sup>57</sup> At the emergency room, they discovered she had a perforated uterus and a lacerated uterine artery, and it was necessary to perform a complete hysterectomy.<sup>58</sup> The Board found Whitmore guilty of unprofessional conduct and recurring practices which failed to satisfy accepted medical standards based on his “disregard of proper

<sup>58</sup> *Id.*

sanitary procedures, his rude and callous treatment of his patients, his refusal to answer their questions, and his tardy recognition of the seriousness of the condition of [a] patient [that] endanger[ed] her life.”<sup>59</sup> The Board had “grave reservations as to Whitmore’s professional competency” and placed his medical license on immediate probation for an indefinite period.<sup>60</sup>

**Dr. Victor Brown** has been the subject of many Board disciplinary actions. In 1989, after allegedly writing and issuing prescriptions for controlled substances to five patients without legitimate medical justification, Brown entered into a consent order placing his medical license on probation for three years and prohibiting him from prescribing, dispensing, or administering any Schedule II controlled substance for the duration of his medical career.<sup>61</sup> In 1997, a medical center suspended his surgical/invasive/endoscopic clinical privileges after an investigation revealed that his definition, evaluation, and treatment of infertility were inconsistent and not in keeping with generally recognized medical standards since he performed dilation and curettage on almost every patient even when not medically indicated or necessary.<sup>62</sup> In 2000, when the Board discovered that Brown had failed to report the loss of his privileges on three different

medical license renewal applications, he agreed to a consent order placing his medical license on indefinite probation and a lifetime limitation on the practice of medicine in the field of obstetrics/gynecology.<sup>63</sup> Specifically, he was not to perform any prenatal care in any surgical/invasive/endoscopic procedures, including dilations and curettages, dilations and evacuations, dilations and extractions, abortions, and vaginal or cesarean deliveries.<sup>64</sup> In 2005, Brown violated this consent order by engaging in and practicing medicine he was not authorized to practice. His license was again placed on indefinite probation and he was further restricted from performing cervical or vaginal biopsies and performing or interpreting any ultrasounds.<sup>65</sup> In 2007, Brown's medical license was revoked and cancelled for violating the terms of the consent order, unprofessional conduct, and professional and medical incompetency.<sup>66</sup>

**Dr. Kevin Work** has also been subjected to multiple disciplinary actions by the Board. In 2009, Work's medical license was placed on a one-year probation when a hospital suspended his clinical privileges after allegations he made "unwelcome and inappropriate sexual comments" and finding he

patients.”<sup>72</sup> Work’s medical license was reinstated without restriction June 2019.<sup>73</sup>

In sum, Louisiana abortion doctors’ multiple professional disciplinary actions for substandard medical care and blatant disregard for their patients’ health and safety—in addition to the numerous health and safety violations of Louisiana abortion clinics—demonstrate that abortion providers’ interests are at odds with their patients’ interests. As such, June Medical cannot have a “close” relationship with its patients and should not be deemed to possess third-party standing to challenge health and safety laws on their behalf.

## II. THE FIFTH CIRCUIT APPROPRIATELY APPLIED THE *CASEY* STANDARD AND DISTINGUISHED *HELLERSTEDT* TO UPHOLD LOUISIANA’S ACT 620.

As the Fifth Circuit observed, “[*Hellerstedt*’s] analysis is rooted in *Casey*,” which “requires that courts consider the burdens a law imposes on abortion access together with the benefits those laws confer.” *June Med. Servs. L.L.C., v. Gee*, 905 F.3d 787, 802 (5th Cir. 2018), citing *Casey*, 505 U.S. at 877. Parenthetically describing its decision process as a “balancing,” *Hellerstedt* states that “[u]nnecessary health regulations that have the purpose or effect of

---

<sup>72</sup> *In the Matter of: Kevin Govan Work*, No. 2019-A-011, at 1–2 (La. Bd. Med. Exam’rs Apr. 15, 2019).

<sup>73</sup> *In the Matter of: Kevin Govan Work*, No. 2019-A-11 (La. Bd. Med. Exam’rs June 10, 2019).

presenting a substantial obstacle to a woman seeking an abortion impose an undue burden on the right.” *Id.* at 802–03, citing *Casey*, 505 U.S. at 878.<sup>74</sup>

While the Fifth Circuit concluded that “[t]here is no doubt that [*Hellerstedt*] imposes a balancing test,” *id.* at 803, *Amici* agree it cannot be regarded as a “‘pure’ balancing test under which *any* burden, no matter how slight, invalidates the law.” *Id.*; see *Hellerstedt*, 136 S. Ct. at 2323–2324 (Thomas, J., dissenting) (*Hellerstedt* “reimagine[d] the undue-burden standard” and created a “free-form balancing test”). “*Casey* expressly allows for the possibility that not every burden creates a ‘substantial obstacle,’” and “even regulations with a minimal benefit are unconstitutional only where they present a substantial obstacle to abortion.” *Gee*, 905 F.3d at 803. Conversely, “[a] minimal burden even on a large fraction of women does not undermine the right to abortion.” *Id.*

Further, the court seems to have been correct in its view that *Hellerstedt* resurrected the *Casey* plurality’s “large fraction” framework (at least for now). *Id.* at

---

<sup>74</sup> Where a legislature has “legitimate reasons” for acting, courts will not infer an impermissible purpose for the law. *McCleskey v. Kemp*, 481 U.S. 279, 298–99 (1987); see also *Smith v. Doe*, 538 U.S. 84, 92 (2003) (“[O]nly the clearest proof will suffice to override legislative intent . . .”) (internal citation omitted). Here, as in *Mazurek v. Armstrong*, “[o]ne searches the Court of Appeals’ opinion in vain for any mention of any evidence suggesting an unlawful motive on the part of the . . . Legislature.” 520 U.S. 968, 972 (1997). The “purpose” analysis should end there.

802. Although the undue burden test remains too malleable and difficult in application, the large fraction component, properly applied, may help inject an objective quotient into the undue burden analysis that could shore up the standard against judicial subjectivity, whether based on political factors or personal judgments.<sup>75</sup> Objectivity is critical to keeping the hundreds of federal judges from invalidating abortion health and safety regulations based on personal assessments of “burden” versus “benefit.”

The Fifth Circuit agreed with the Eighth Circuit’s elucidation of the undue burden/large fraction framework in *Planned Parenthood of Ark. & E. Okla. v. Jegley*, 864 F.3d 953 (8th Cir. 2017). “In every other area of the law, a facial challenge requires plaintiffs to establish a provision’s unconstitutionality in every conceivable application.” *Gee*, 905 F.3d at 815, citing *United States v. Salerno*, 481 U.S. 739, 745 (1987) (plaintiffs bringing constitutional challenges “must establish that no set of circumstances exists under which the [law] would be valid”). In the abortion context, however, plaintiffs “are excused from that demanding standard and must show a substantial burden in only a large fraction of cases.” *Id.* Thus, as the Eighth Circuit expressed, with facial challenges to abortion regulations, the Court “has fashioned a different standard under which the plaintiff can prevail by demonstrating that ‘in a large fraction of the cases in which [the law] is relevant, it will operate

---

<sup>75</sup> Accord *Planned Parenthood of Ark. & E. Okla. v. Jegley*, 864 F.3d 953, 960 (8th Cir. 2017) (“[W]e find that [the large fraction] standard is not entirely freewheeling and that we can and should define its outer boundaries.”).

as a substantial obstacle to a woman’s choice.” *Gee*, 905 F.3d at 802, quoting *Jegley*, 864 F.3d at 958 (citing *Casey*, 505 U.S. at 895).

Here, as in *Hellerstedt*, the Fifth Circuit treated the denominator of the “fraction” in question as all women seeking abortions because the statutes at issue encompass all types of abortions. “Accordingly, to sustain the facial invalidation of Act 620, we would have to find that it substantially burdens a large fraction of all women seeking abortions in Louisiana.” *Id.* at 802. The court correctly held that June Medical did not meet that standard.

The court began its application of *Hellerstedt* to the circumstances in Louisiana by observing that “the facts in the instant case are remarkably different from those that occasioned the invalidation of the Texas statute.” *Gee*, 905 F.3d at 791; cf. *id.* (“Careful review of the record reveals stark differences between the record before us and that which the Court considered in [*Hellerstedt*];”) *id.* at 803 (*Hellerstedt* involved “a substantially similar statute but greatly dissimilar facts and geography”). Ultimately, Act 620 “passes muster even under the stringent requirements of [*Hellerstedt*].” *Id.* at 791.

The Fifth Circuit distinguished *Hellerstedt* by observing that unlike Texas, Louisiana presented “some evidence” of a medical benefit in the challenged regulation and “far more detailed evidence of Act 620’s impact on access to abortion.” *Id.* at 805. As to the “benefit,” the court displayed the appropriate deference to the State legislature consistent with the

Court’s pronouncement in *Gonzales v. Carhart* that States have “wide discretion” in passing health and safety legislation, even if “medical and scientific uncertainty” exists—a threshold of authority that outpatient emergency admission standards easily surmount. 550 U.S. 124, at 163 (2007). The practice of surgical abortion overwhelmingly occurs in outpatient clinical facilities,<sup>76</sup> and the widely accepted overall hospitalization rate following elective abortion (0.3% or one in three hundred patients) is similar to rates for other similar outpatient procedures such as liposuction, gastrointestinal endoscopy, colonoscopy, and upper endoscopy.<sup>77</sup> See *Gee*, 905 F.3d at 805 (noting “[p]rocedures performed at [outpatient

---

<sup>76</sup> TE LINDE’S OPERATIVE GYNECOLOGY 448 9th ed. (2003) (reporting that 93% of abortions occur in free-standing clinics and 2% in physicians’ offices); Rachel K. Jones & Jenna Jerman, *Abortion Incidence and Service Availability in the United States, 2011*, 46 Perspectives on Sexual & Reprod. Health 1 (2014), <https://doi.org/10.1363/46e0414>.

<sup>77</sup> U.S. Dep’t of Health & Human Servs., Ctrs. for Disease Control, National Health Statistics Reports: Ambulatory Surgery in the United States, 2006 (revised Sept. 4, 2009); Stanley Henshaw & Lawrence Finer, *The Accessibility of Abortion Services in the United States*, 35 Perspectives on Sexual and Reprod. Health 16 (2003) (stating hospitalization rate for abortion is 0.3%). See *Planned Parenthood of Greater Tex. Surgical Health Servs. v. Abbott*, 748 F.3d 583, 595 (5th Cir. 2014) (citing figure of 210 emergency direct transfers from abortion centers to hospitals in Texas annually). However, because (as the panel noted), “[m]ost complications occur well after the surgery,” *Gee*, 905 F.3d at 806, n.56, this figure may be conservative. Compare Ushma D. Upadhyay et al., *Incidence of Emergency Department Visits and Complications After Abortion*, 125 Obstetrics & Gynecology 175 (2015) (stating that 1 in 115 abortions resulted in an abortion-related complication treated in an emergency room).

surgical centers] include upper and lower GI endoscopies, injections into the spinal cord, and orthopedic procedures”).

The Fifth Circuit also found that the record regarding hospital credentialing in Louisiana is starkly different from that in *Hellerstedt*. Unlike Texas, “Louisiana was not attempting to target or single out abortion facilities. In fact, it was just the opposite—the purpose of the Act was to bring them ‘into the same set of standards that apply to physicians providing similar types of services in [ambulatory surgical centers].” *Id.* at 806. Act 620 “brings the requirements regarding outpatient abortion clinics into conformity with the *preexisting* requirement that physicians at ambulatory surgical centers (“ASCs”) must have privileges at a hospital within the community.” *Id.* at 805.

Additionally, unlike in *Hellerstedt*, Louisiana’s emergency admission requirement “performs a real, and previously unaddressed, credentialing function that promotes the wellbeing of women seeking abortion.” *Id.* at 806. This credentialing function arises from the fact that “hospitals perform more rigorous and intense background checks than do the clinics.” *Id.* at 805. The Fifth Circuit noted that Doe 3, June Medical’s Chief Medical Officer, hired and trained doctors to perform abortions who were not OB/GYNs, including a radiologist and an ophthalmologist. *Id.* at 799. He was the only one to evaluate their credentials and admitted he neither performed background checks nor inquired into their previous training. *Id.* “The record shows that clinics,

beyond ensuring that the provider has a current medical license, do not appear to undertake any review of a provider's competency. The clinics, unlike hospitals, do not even appear to perform criminal background checks." *Id.* at 805.

As to the "burdens," the court appropriately determined "there is insufficient evidence to conclude that, had the doctors put forth a good-faith effort to comply with Act 620, they would have been unable to obtain privileges." *Id.* at 807. If the Act went into effect, June Medical and Women's Health could remain open since each would have a qualified doctor. Delta is the only clinic that would close since its doctor lacks admitting privileges. *Id.* at 810. However, Delta's closing could not be attributed to the operation of Act 620 since the doctor, Doe 5, testified he will be given qualifying privileges after securing a covering doctor. *Id.* at 809.<sup>78</sup>

Because no clinics would close as a direct result of Act 620, "there would be no increased strain on available facilities, as no clinic will have to absorb another's capacity." *Id.* at 811–12. And Act 620 will impose no substantial obstacle to abortion access as a

---

<sup>78</sup> The Fifth Circuit should be commended for clarifying that the actions and inactions of the Doe doctors and the independent actions and choices of third parties cannot be attributed to Act 620. Here, "the vast majority [of Does] largely sat on their hands, assuming that they would not qualify. Their inaction severs the chain of causation." *Gee*, 905 F.3d at 807. The court and parties agreed that the closures of two abortion centers were unrelated to Act 620. Additionally, the Fifth Circuit properly held that the district court erred in factoring the strongly pro-life culture of Louisiana into its substantial burden analysis. *Id.* at 810, n.60.

result of increased driving distances. *Id.* at 791. Finally, Act 620 would impose, at most, an increase in volume of only 30% at just one abortion business. *Id.*

In seeking to determine what would constitute an “undue burden” imposed by Act 620, the Fifth Circuit understandably struggled with interpreting the “large fraction” component of the undue burden test. The court reflected that the Court “has not defined what constitutes a ‘large fraction,’ and the circuit courts have shed little light.” *Id.* at 814. The Sixth Circuit determined that 12% was an insufficiently “large fraction,” *Cincinnati Women’s Servs. v. Taft*, 468 F.3d 361, 373 (6th Cir. 2006), and other circuits have found that “a large fraction [exists only] when *practically all* of the affected women would face a *substantial* obstacle in obtaining an abortion.” *Gee*, 905 F.3d at 814, quoting *Taft*, 468 F.3d at 373–74 (emphasis in *Gee*).<sup>79</sup>

The court noted that Does 2 and 3 would each need to perform an additional 550 procedures per year at one abortion center, or six extra abortions each day over what Doe 3 currently performs. “Using his testimony that he can perform six abortions an hour, that load would not result in a substantial increase in wait times. Common sense dictates that an hour cannot be a substantial burden.” *Id.* at 812–13. Nor would a thirty percent increase in volume at one abortion center approach “practically all” women

---

<sup>79</sup> Accord *Jegley*, 864 F.3d at 959, n.8 (“We are skeptical that 4.8 to 6.0 percent is sufficient to qualify as a ‘large fraction’ of women seeking medication abortions in Arkansas.”).

seeking abortions in Louisiana, so it cannot be deemed a large fraction for purposes of *Hellerstedt*. *Id.* at 814. “To conclude otherwise eviscerates the restrictions on a successful facial challenge.” *Id.* at 815.<sup>80</sup> The Fifth Circuit thus correctly concluded that “[i]nstead of demonstrating an undue burden on a large fraction of women, *June Medical* at most shows an insubstantial burden on a small fraction of women. That falls far short of a successful facial challenge.” *Id.*

III. *HELLERSTEDT* HAS AGGRAVATED THE  
ALREADY UNWORKABLE STANDARD SET OUT IN  
*ROE* AND *CASEY*, AND THE COURT SHOULD  
RECONSIDER THOSE PRECEDENTS.

The Fifth Circuit labored to do the best it could with the vague and opaque “undue burden” standard on which the Court has relied since *Casey*. *Amici* respectfully suggest that the court’s struggle—similar to dozens of other courts’ herculean struggles in this area—illustrates the unworkability of the “right to abortion” found in *Roe* and the need for the Court to take up the issue of whether *Roe* and *Casey* should be reconsidered and, if appropriate, overruled.

---

<sup>80</sup> This approach is also consistent with *Gonzales*’ instruction that facial challenges are disfavored. 550 U.S. at 167; *Wash. State Grange v. Wash. State Republican Party*, 552 U.S. 442, 450 (2008). A fraction of abortions at a small number of abortion centers—or just one abortion center—should not constitute grounds for a holding of facial invalidity. At most, it might constitute grounds for an as-applied challenge by that abortion business only, which it has not made here.

*Stare decisis* is not an “inexorable command,” much less a constitutional principle. *Burnet v. Colorado Oil & Gas Co.*, 285 U.S. 393, 405 (1932) (Brandeis, J., dissenting). Instead, it is a prudential and pragmatic judgment. *Casey*, 505 U.S. at 854. The Court has exercised that judgment to overrule precedent in over 230 cases throughout its history.<sup>81</sup> Forty-six years after *Roe* was decided, it remains a radically unsettled precedent: two of the seven Justices who originally joined the majority subsequently repudiated it in whole or in part,<sup>82</sup> and virtually every abortion decision since has been closely divided.

Furthermore, *Roe*’s jurisprudence has been haphazard from the beginning. *Roe* did not actually hold that abortion was a “fundamental” constitutional right, but only implied it.<sup>83</sup> This ambiguity was compounded by the Court’s concluding “summary” of the *Roe* holding, which nowhere mentioned abortion as a fundamental right, strict scrutiny analysis, or the need to “narrowly tailor” regulations. Instead, the Court only required that regulations be “reasonably relate[d]” to the State’s interest and “tailored to the

<sup>82</sup> *Thornburgh v. ACOG*, 476 U.S. 747, 782–85 (1986) (Burger, J., dissenting); John C. Jeffries, Jr., JUSTICE LEWIS F. POWELL JR.: A BIOGRAPHY 341 (1994) (referring to *Roe* and *Doe* as “the worst opinions I ever joined”).

<sup>83</sup> See, e.g., *Roe*, 410 U.S. at 155.

recognized state interests.”<sup>84</sup> The cases decided since did not consistently treat abortion as a “fundamental right” and did not consistently apply strict scrutiny.<sup>85</sup>

Besides dictum in *Maier v. Roe*,<sup>86</sup> in the two decades between *Roe* and *Casey* the majority of the Court referred to abortion as a “fundamental right” only twice: *City of Akron v. Akron Center for*

---

<sup>84</sup> *Id.* at 164–65.

<sup>85</sup> See, e.g., *Connecticut v. Menillo*, 423 U.S. 9 (1975) (no reference to any “fundamental right” or “strict scrutiny” in *per curiam* opinion); *Planned Parenthood of Cent. Mo. v. Danforth*, 428 U.S. 52 (1976) (failing to use any particular level of scrutiny); *id.* at 71 (noting “inconsisten[cy] with the standards enunciated in *Roe v. Wade*”); *Bellotti v. Baird*, 428 U.S. 132 (1976) (using “*unduly burdensome*” standard); *id.* at 147 (characterizing *Danforth* as holding that a law “is not unconstitutional unless it *unduly burdens* the right to seek an abortion”) (emphasis added); *Beal v. Doe*, 432 U.S. 438, 466 (1977) (invoking the “*unduly burdensome*” standard); *Maier v. Roe*, 432 U.S. 464, 471 (1977) (referring only indirectly to “a fundamental right” but then holding “the District Court misconceived the nature and scope of the fundamental right recognized in *Roe*”); *id.* at 470–71 (“the right protects the woman from *unduly burdensome* interference with her freedom”); *id.* at 474, (concluding that the regulation “does not impinge upon the fundamental right recognized in *Roe*”); *Colautti v. Franklin*, 439 U.S. 379, 396–97 (1979) (applying an “*unduly limit*” standard); *Bellotti v. Baird*, 443 U.S. 622, 640 (1979) (employing an “*undue burden*” standard without referencing a “fundamental right”); *Harris v. McRae*, 448 U.S. 297, 324–26 (1980) (applying a *rational basis test* for the Hyde Amendment); *H.L. v. Matheson*, 450 U.S. 398 (1981) (upholding the Utah parental notice law against a facial challenge, without reference to abortion as a “fundamental” right).

<sup>86</sup> 432 U.S. 464 (1977).

*Reproductive Health*,<sup>87</sup> and *Thornburgh v. ACOG*.<sup>88</sup> But even then the Court never expressly applied “strict scrutiny-narrowly tailored” analysis, and the Court overruled both cases in *Casey*.<sup>89</sup>

After two decades of inconsistency, the Court officially disavowed “fundamental right” status for abortion and strict scrutiny review, adopting instead an “undue burden” test in *Casey*. *Gee*, 905 F.3d at 871, 874–76. But *Casey* did not settle the clarity of the “undue burden” standard. As a result, consistency and predictability continue to be undermined as federal courts struggle to apply the *Roe/Casey* standard.<sup>90</sup> Immediately after *Casey*, the Court again changed the applicable standard and adopted a “large fraction” test in *Fargo Women’s Health Organization v. Schafer*.<sup>91</sup> But the lower federal courts had no better luck discerning what a “large fraction” of “relevant

<sup>87</sup> 462 U.S. 416, 427 (1983).

<sup>88</sup> 476 U.S. 747, 789 (1986).

<sup>89</sup> 505 U.S. at 882.

<sup>90</sup> See, e.g., *Planned Parenthood of Minn. v. Minnesota*, 910 F.2d 479 (8th Cir. 1990) (trying to determine standard of review after *Webster v. Reprod. Health Servs.*, 492 U.S. 490 (1989)); Paul Quast, *Respecting Legislators and Rejecting Baselines: Rebalancing Casey*, 90 Notre Dame L. Rev. 913 (2014) (citing cases); Sandra L. Tholen & Lisa Baird, *Con Law is as Con Law Does: A Survey of Planned Parenthood v. Casey in the State and Federal Courts*, 28 Loyola L. Rev. 971 (1995) (citing cases).

<sup>91</sup> 507 U.S. 1013, 1014 (1993) (O’Connor, J., joined by Souter, J., concurring in denial of certiorari) (“[W]e made clear that a law restricting abortions constitutes an undue burden, and hence is invalid, if, ‘in a large fraction of the cases in which [the law] is relevant, it will operate as a substantial obstacle to a woman’s choice to undergo an abortion.’”).

cases” meant.<sup>92</sup> The “large fraction” test appeared to have been effectively abandoned in *Gonzales*, but was revived in *Hellerstedt*. However, it was applied incoherently such that it would always result in invalidation of the State’s interest and the State statute.<sup>93</sup> And the Court in *Hellerstedt* once again employed *Casey*’s “undue burden” test but adopted a “benefits-and-burdens balancing test” by which federal judges are required to assess the “medical justification” of abortion regulations.<sup>94</sup>

In sum, *Roe*’s jurisprudence has been characterized by Delphic confusion and protean change. The Court struck down regulations in *Akron* and *Thornburgh* later approved in *Casey*. The Court identified two state interests for abortion regulations

---

<sup>92</sup> Kevin Martin, *Stranger in a Strange Land: The Use of Overbreadth in Abortion Jurisprudence*, 99 Col. L. Rev. 173 (1999); *Barnes v. Mississippi*, 992 F.2d 1335, 1337 (5th Cir. 1993) (“[P]assing on the constitutionality of state statutes regulating abortion after *Casey* has become neither less difficult nor more closely anchored to the Constitution.”); *Planned Parenthood of Idaho, Inc. v. Wasden*, 376 F.3d 908, 920 n.9 (9th Cir. 2004) (noting the “large fraction” standard has been labeled “unique”); *Nat’l Abortion Fed’n v. Gonzales*, 437 F.3d 278, 294 (2d Cir. 2006) (Walker, J.) (“As it stands now, however, the Supreme Court appears to have adopted the ‘large fraction’ standard (perhaps modified by *Stenberg v. Carhart*, 530 U.S. 914 (2000)) to mean a ‘not-so-large-fraction’ standard . . .”).

<sup>93</sup> 136 S. Ct. at 2343 n.11 (Alito, J., dissenting) (“Under the Court’s holding, we are supposed to use the same figure (women actually burdened) as both the numerator and the denominator. By my math, that fraction is always ‘1,’ which is pretty large as fractions go.”).

<sup>94</sup> *Id.* at 2324 (Thomas, J., dissenting).

in *Roe* but recognized more in *Gonzales*.<sup>95</sup> It struck down limits on partial-birth abortion in *Stenberg v. Carhart*<sup>96</sup> later approved in *Gonzales*. It rejected facial challenges in *Gonzales*<sup>97</sup> it then resurrected, *sua sponte*, in *Hellerstedt*.<sup>98</sup> The Court has retreated from *Roe* in at least four cases—*Harris*, *Webster v. Reproductive Health Services*,<sup>99</sup> *Casey*, and *Gonzales*—recalibrating the standard of review and giving States more deference to enact health and safety regulations and partial prohibitions. As the Court pulled away from *Roe*, the States moved forward to regulate abortion to the maximum extent allowed to protect the “state interests” permitted in *Roe*, *Casey* and *Gonzales*. These incessant retrenchments show that *Roe* has been substantially undermined by subsequent authority, a principal factor the Court considers when deciding whether to overrule precedent.<sup>100</sup> *Casey* clearly did not settle the abortion issue, and it is time for the Court to take it up again.

---

<sup>95</sup> 550 U.S. at 157 (protecting the medical community’s “reputation”); *id.* at 159 (“ensuring so grave a choice is well informed”).

<sup>96</sup> 530 U.S. 914 (2000).

<sup>97</sup> 550 U.S. at 167 (“[T]hese facial attacks should not have been entertained in the first instance.”).

<sup>98</sup> 136 S. Ct. at 2340 (2016) (Alito, J., dissenting) (“No court would even think of reviving such a claim on its own.”).

<sup>99</sup> 492 U.S. 490 (1989).

<sup>100</sup> *Citizens United v. Fed. Election Comm’n*, 558 U.S. 310, 379 (2010) (Roberts, C.J., concurring).

CONCLUSION

*Amici* respectfully submit that the judgment should be affirmed, either on the ground that June Medical lacks standing to challenge Louisiana’s emergency admission law or on the ground that the Fifth Circuit did not err in holding that the law does not impose an “undue burden” on access to abortion.

Respectfully submitted,

CATHERINE GLENN FOSTER

STEVEN H. ADEN
